MEMORANDUM

TO: Honorable Members, Capital Planning Committee

FROM: Anna Van Degna, Director of the Office of Public Finance
Vishal Trivedi, Office of Public Finance
Bridget Katz, Office of Public Finance

DATE: Monday, September 14, 2020

SUBJECT: Resolution Authorizing the Sale of General Obligation Bonds
(Public Health and Safety, 2016) Series 2020D – Not to Exceed $126,925,000

We respectfully request that the Capital Planning Committee consider for review and recommendation to
the Board of Supervisors the resolution approving the sale of general obligation bonds for the 2016 Public
Health and Safety bond program in an amount not to exceed $126,925,000 (“Bonds” or the “2020D
Bonds”).

In connection with this request, legislation approving the sale of this third and final series of bonds, a
supplemental appropriation ordinance to appropriate the bond proceeds, and related supporting
documents are expected to be introduced at the Board of Supervisors meeting on Tuesday, September 22,
2020. We will request that the items be heard at the scheduled Budget and Finance Committee meeting
on September 30, 2020.

Background
On June 7, 2016, a two-thirds majority of voters of the City approved Proposition A ("2016 Proposition A"),
the San Francisco Public Health and Safety General Obligation Bond. 2016 Proposition A authorizes the City
and County of San Francisco to issue $350,000,000 in general obligation bonds to fund capital projects to
renovate, expand, and seismically enhance fire safety and healthcare facilities, to construct a larger and
more modern City ambulance center, to repair and modernize neighborhood fire stations, and to build,
acquire, and improve facilities to better serve homeless individuals and families. The projects to be funded
through the proposed bond sales include: (i) seismic improvements and upgrades to fire safety systems to
Building 5 on the campus of Zuckerberg San Francisco General Hospital, (ii) renovation and expansion of
the Southeast Health Center and other neighborhood health clinics, (iii) a higher-capacity and seismically
safer ambulance facility to improve emergency medical response, (iv) capital improvements to City fire
stations facilities, and (v) the acquisition and construction of homeless services facilities. Of the total
authorization, $223,075,000 has been issued to date, leaving $126,925,000 remaining from the 2016 Proposition A funds.

The projects to be funded by this issuance include: completion of the seismic retrofit and life safety projects and clinic consolidation at Zuckerberg San Francisco General Hospital Building 5; completion of renovation projects at Southeast, Maxine Hall, and Castro Health Centers; and seismic improvements at selected fire stations.

Financing Parameters

The proposed legislation will approve the sale of the third series of bonds under 2016 Proposition A, and appropriate of the bond proceeds from the sale. Table 1 below outlines the not-to-exceed sources and uses for the Bonds, based on an estimate provided by NHA Advisors, a municipal advisory firm registered with the Municipal Securities Rulemaking Board (MSRB). The information below is intended to advise the Board of Supervisors regarding the proposed financing in accordance with Section 5852.1 of the California Government Code.

Table 1: Estimated Sources and Uses from the Bonds

<table>
<thead>
<tr>
<th>Source: NHA Advisors, LLC</th>
</tr>
</thead>
<tbody>
<tr>
<td>Based upon an estimated market interest rate of 3.04% for taxable general obligation bonds, the Office of Public Finance estimates that this would result in an average annual debt service cost of about $8,350,000.</td>
</tr>
</tbody>
</table>
The anticipated par amount of $126,925,000 is estimated to generate about $40,000,000 in interest payments, resulting in approximately $167,000,000 in total debt service over the anticipated 20-year term of the bonds.

Detailed descriptions of the projects to be financed with proceeds of the Bonds are included in the Bond Reports to be prepared by the Department of Public Health and the Department of Public Works. In addition, a portion of the Bond proceeds will be used to pay certain expenses incurred in connection with the issuance and delivery of the Bonds, and the periodic oversight and review of the Projects by City Services Auditor ("CSA Audit") and the Citizens’ General Obligation Bond Oversight Committee ("CGOBOC").

**Property Tax Impact**

Repayment of annual debt service on the Series 2020D Bonds will be recovered through increases in the annual property tax rate, which is estimated to average $0.00277 per $100 of assessed value or $2.77 per $100,000 of assessed value over the anticipated 20-year term of the bonds. The owner of a residence with an assessed value of $600,000, assuming a homeowner’s exemption of $7,000, would pay average additional property taxes to the City of approximately $16.42 per year if the anticipated $126,925,000 Bonds are sold.

**Debt Limit**

The City Charter imposes a limit on the amount of general obligation bonds the City can have outstanding at any given time. That limit is 3.00% of the assessed value of property in the City. For purposes of this provision of the Charter, the City calculates its debt limit on the basis of total assessed valuation net of non-reimbursable and homeowner exemptions. On this basis, the City’s general obligation debt limit for fiscal year 2020-21 is approximately $9.04 billion, based on a net assessed valuation of approximately $301.4 billion. As of September 1, 2020, the City had outstanding approximately $2.15 billion in aggregate principal amount of general obligation bonds, which equals approximately 0.71% of the net assessed valuation for fiscal year 2020-21. If all of the City’s voter-authorized and unissued general obligation bonds were issued, the total debt burden would be 1.44% of the net assessed value of property in the City. If the Board of Supervisors approves the issuance of the Bonds, the debt ratio would increase by approximately 0.042% to 0.76%— within the 3.00% legal debt limit.

**Capital Plan**

The Capital Planning Committee approved a financial constraint regarding the City’s planned use of general obligation bonds such that debt service on approved and issued general obligation bonds would not increase property owners’ long-term property tax rates above fiscal year 2006 levels. The fiscal year 2006 property tax rate for the general obligation bond fund was $0.1201 per $100 of assessed value. If the Board of Supervisors approves the issuance of the Bonds, the property tax rate for general obligation bonds for fiscal year 2020-21 would be maintained below the fiscal year 2006 rate and within the Capital Planning Committee’s approved financial constraint.
