There's only one San Francisco. Let's take care of it.

2021 Annual Infrastructure Construction Cost Inflation Estimate

December 14, 2020

Annual Infrastructure Construction Cost Inflation Estimate (AICCIE)

2

- Today's action item: Adopt the AICCIE for CY 2021

- AICCIE: projected rate of construction cost escalation for the upcoming calendar year, used to:
 - Forecast costs for the 2-Year Capital Budget & 10-Year Capital Plan
 - Annually adjust developer impact fees
 - Update FRRM and other city forecasting tools
 - Adjusts property tax baseline for Transbay properties

AICCIE Recommendation CY2021

3

- ❑ ORCP recommends an AICCIE of **3.5%** for CY 2021
- ❑ Construction cools, but COVID impacts keep costs up
- ❑ In line with previous recession rates

Historical AICCIE

*prior to or pending CPC acceptance

Questions or Comments?

There's only one San Francisco. Let's take care of it.

The Office of Resilience and Capital Planning is the City and County of San Francisco's program to plan and finance projects that strengthen the integrity and resilience of San Francisco's infrastructure, neighborhoods, and residents.

Capital Plan

The Plan captures the City's major infrastructure projects for the next ten years and recommends funding levels based on priority and availability for each project.

[Enter The Plan](#)

Capital Budget

The Budget puts the Plan into action by allocating funding over the next two years for projects recommended in the Plan.

[Enter The Budget](#)

Capital Planning Committee

The Capital Planning Committee (CPC) makes recommendations on capital projects to the Mayor and Board of Supervisors regarding capital plans, projects, and funding.

Methodology

5

- ▣ Reviewed cost inflation data, market trend analyses, employment data, and a variety of national, state and local commercial and institutional construction cost inflation indices to:
 - ▣ Understand economic conditions
 - ▣ Identify inflation trends for construction related materials and services
 - ▣ Gauge San Francisco's current construction market

- ▣ Resources Used:
 - ▣ Major construction and construction-related cost indices
 - ▣ National and local employment data from Bureau of Labor Statistics (BLS)
 - ▣ Market reports from industry experts
 - ▣ Conversations with project managers, construction consultants/economists, and those working in the field
 - ▣ Public reports of local construction activity

Historical Retrospective Escalation Indices

6

Construction Index	Description	2014	2015	2016	2017	2018	2019	2020
Turner Building Cost Index	Change in costs of non-residential building construction nationwide	4.4%	4.5%	4.8%	4.2%	5.6%	5.5%	5.5%
BLS New Construction PPI	Change in output price of new non-residential construction	3.1%	1.7%	0.6%	3.5%	3.3%	5.6%	2.1%
BLS Maintenance Contractor PPI	Change in costs of price for work done to maintain and repair non-residential buildings	2.9%	2.0%	1.3%	3.1%	2.7%	5.0%	1.3%
BLS SF Metro CPI	Change in cost of local consumer goods	3.0%	2.6%	3.1%	3.4%	4.3%	2.7%	1.6%
BLS SF Metro Employment Cost Index	Change in employment cost (averages Total Compensation and Wages/Salaries)	4.5%	2.2%	2.2%	5.8%	6.2%	2.6%	2.9%
ENR CCI – San Francisco	Change in SF <i>common</i> labor and materials	4.9%	2.4%	3.6%	4.2%	0.3%	2.4%	5.2%
ENR BCI – San Francisco	Change in SF <i>skilled</i> labor and materials	3.0%	2.6%	3.7%	4.8%	0.5%	4.2%	6.0%
TBD Consultants Bid Index	Change in construction bid cost for an indexed simple new construction project in SF	4.2%	12.5%	11.9%	2.7%	0.2%	9.8%	2.8%
AICCIE	City of SF projected estimate for escalation in the calendar year listed (prepared the previous October)	4.5%	5.0%	5.0%	5.0%	5.75%	6.0%	5.5%

- 2020 average across all listed indices: 3.4% (4.6% in 2019)
- 2020 average across all local indices in shaded rows: 3.7% (4.3% in 2019)

2021 SF Experts Projected Escalation

7

Organization	2020 Estimate	2021 Estimate	2020 vs. 2021
Jacobs	6	5	-1
Clark	6.5	3-4	-3
TBD Construction Consultants	5.5	1	-4.5
M. Lee Corporation	6	5	-1
SFO	6	2-3	-3.5
SFPUC	6	4-5	-1.5
Pankow	5	3-4	-1.5
Cumming Construction	4.5	3	-1.5
Saylor Consulting Group	4.5	4	-.5
Sightlines (academic institutions)	5.5	3.6	-1.9
Average	5.5	3.5	-2

Industry experts are estimating SF 2021 escalation in the range of 1% to 5%

Contractor/Project Manager Perspective

8

“COVID-19 has added costs due to productivity losses...However there is more interest from sub-contractors and more competition in the trades to secure work. These competing factors tend to cancel each other out in the current market ”

Contractor/Project Manager Perspective

9

Majority of General Contractors and subcontractors have enough of a backlog to last 15-18 months.

Competition is lowering the cost of construction on some trades. If trade businesses begin to fail over the next year, competition will be lost.

Material supply chain interruptions due to global manufacturing shutdowns and transportation limitations

Do not expect a big drop in labor cost, only in the margins and contingencies in bid pricing.

For projects bidding today, most contractors are absorbing the added costs to secure backlog.

Local Labor Considerations

10

- ▣ SF unemployment: 8.4% (Sept 2020)
- ▣ SF area construction employment numbers down -12.1% from last year.
 - SF average hourly construction wages are still 43% higher than national average
- ▣ Escalation has been flat from Jan-August

Local Sector Forecast

11

CURRENT MAJOR BAY AREA PROJECTS (\$1+B)

Delta Water Tunnel
 San Jose BART Extension
 City Place Mixed-Use Development
 Potrero Power Plant
 Vallco Town Shopping Center
 Mission Point Mixed-Use
 Seawall Lot 337/Mission Rock
 Flower Mart
 UCSF Hospital Replacement
 India Basin Mixed Use

Impact of # of Bids on Costs

13

- Slight increase in the last year to **3.9 average bids per construction project, 4.9 since April reopening.**

Journal of Construction Engineering & Management (National, 2005)	
# of Bids	Low Bid Deviation From Estimate
1	1.15
2	1.11
3	1.07
4	1.01
5	0.95
6	0.91
7	0.89
8	0.88

Saylor Consulting (Bay Area, 2015)	
# of Bids	% Differential (estimate vs. bid)
1	+25% to 50%
2-3	+10% to 25%
4-5	0% to 10%
6-7	0% to -10%
8 – 10	-10% to -20%

Current SF Market

State Economy

14

- ❑ Deep budget cuts
- ❑ Postponed climate infrastructure funds
- ❑ Double blow of COVID and wildfires
- ❑ Some improvement from historic low employment numbers, new business creation, and consumer spending

National Economic and Sector Growth

15

- **Economic recession continues with signs of recovery**

 - -31.7% GDP decrease in Q2 2020, the 2nd quarter of recession after 23 consecutive quarters of growth
 - Overall US unemployment: 8.4% in August 2020 (3.9% last year), down from historic peak of 14.7% in April

- **Modest recovery in construction after steep declines**

 - National construction industry unemployment: 7.6% (3.4% last year)
 - Construction spending down -.1% YOY, less of a decrease than the -2.7% dip last year.
 - Nonresidential spending down -4.3% YOY
 - Dodge Momentum Index down -8.2% YOY.
 - Residential construction drives modest recovery

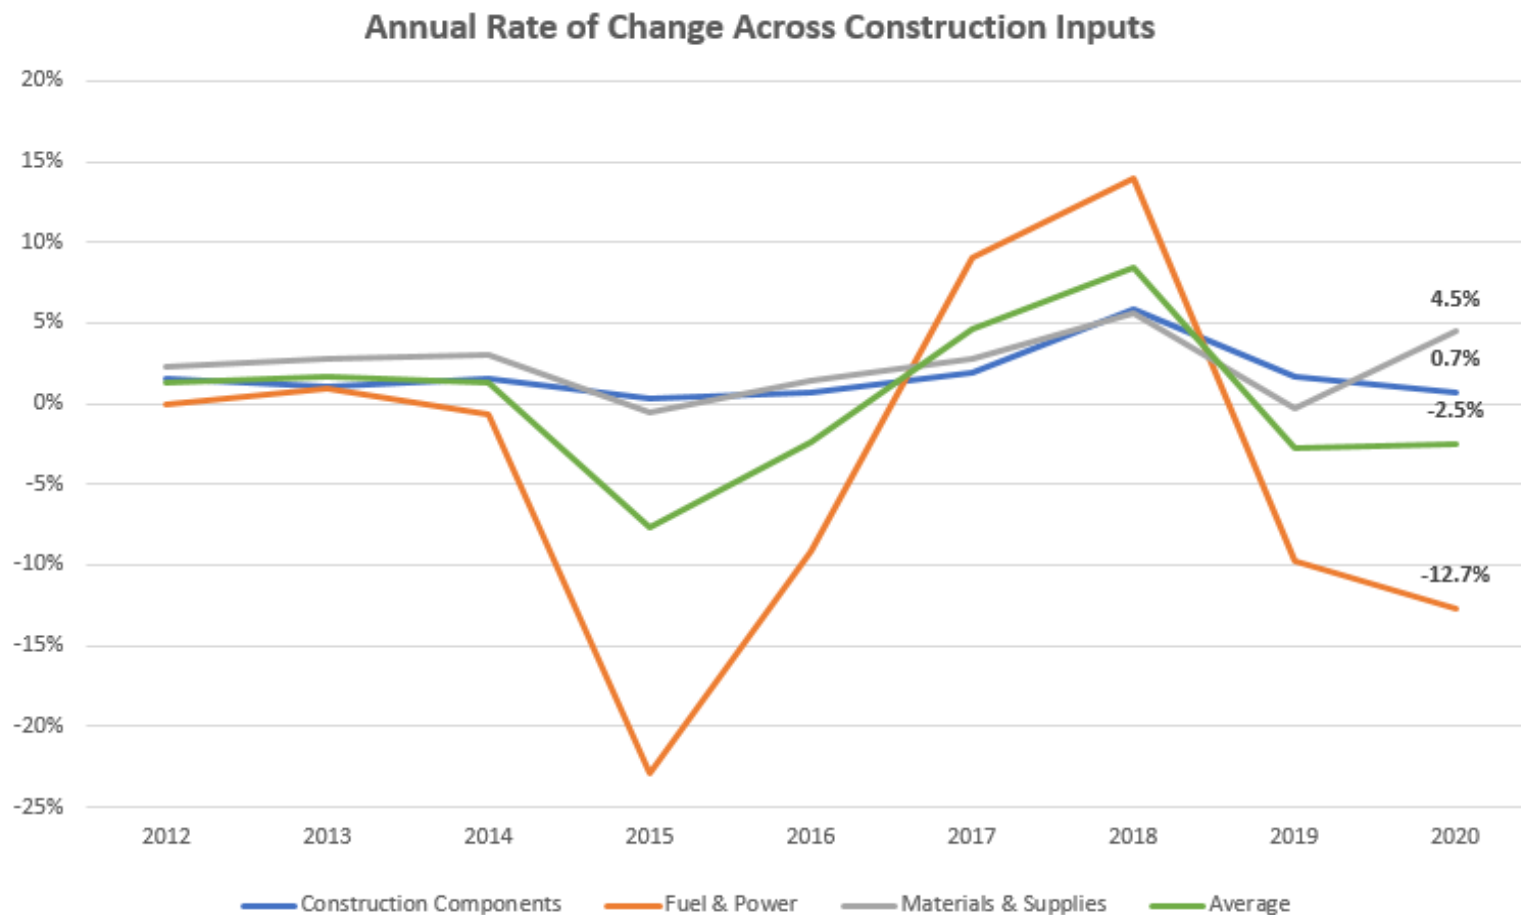

- **Heightened volatility**

 - Pandemic response, future economic closures, disruptions to supply chain, natural disasters, Presidential election

Materials Costs – Combined Categories

16

- ▣ Negative change in Fuel & Power, modest increase across other inputs

Source: Bureau of Labor Statistics <http://data.bls.gov/data>, Industry and Commodity Data

Relevant Legislation

17

- ▣ Health and Recovery Bond (November 2020 ballot)
- ▣ Prop F, Business and Tax Regulations Charter Amendment (November 2020 ballot)
- ▣ Earthquake Safety & Emergency Response Bond (approved March 2020)
- ▣ SF Affordable Housing Bond (approved November 2019)
- ▣ Central SOMA Plan (approved December 2018)
- ▣ Seawall Bond (approved November 2018)
- ▣ State Affordable Housing Bond (approved November 2018)
- ▣ Public Health & Safety Bond (approved June 2016)

Conclusion

18

- ▣ Pandemic has cooled construction activity, but the market remains busy
- ▣ Shift in bidding environment contingent on contractors & suppliers staying afloat
 - ▣ Labor eager to be competitive and build portfolio
 - ▣ Bids are coming in close to estimate
- ▣ Local experts are using 2021 escalation rates of 1% to 5%.
- ▣ ORCP's recommendation of **3.5%** is in line with experts' predictions.

Materials and Trades – Special Concerns

19

Volatile Materials
Lumber
Steel
Aluminum
Copper
Concrete
Glass
Asphalt
Gypsum

Subtrade Shortages
Mechanical
Electrical
Plumbing
Concrete
Glazing
Drywall

National New Construction Cost Indices

20

- Average is 5% lower than 2019.

Annual % Change in BLS New Construction Cost Indices

Local Private Industry Employment Cost Index

21

- Wages and benefits declined for the second year in 2020

Economic Trends—Global

22

- ▣ **Modest decline in global construction growth expected, if second wave avoided**
 - ▣ -3.2 overall decline in global construction market, recovered activity in China stemmed steeper drop
 - ▣ Projected 1.9% CAGR between 2019-2021
 - ▣ -8.9 GDP decline YOY Q2 2020

- ▣ **Ongoing uncertainty**
 - ▣ Additional waves of COVID shutdowns
 - ▣ Ongoing trade tensions between the US and China
 - ▣ Ongoing geopolitical tensions and concerns about the economic outlook
