Challenges & Risks

12

- **Unfavorable Bidding Environment:**
 - Bids are coming back 20%-40% above engineers estimates; pursuing the development of a bid reserve to ensure we can deliver scope as promised.
- **Coordination with PG&E**
- **Regulatory Requirements & Process**
 - Required additional permitting, planning and design work before construction could begin
- **Building stewardship for Citywide Programs**
 - Robust (and lengthy) community outreach process
- **Citywide Capacity and Staff Resources**
