

Concrete Building Safety Program

Stakeholder Working Group Meeting #4

February 7, 2023

11:00 a.m. to 1:00 p.m., via Zoom

Meeting Objectives

1. Members understand the City's proposed approach to retrofitting tilt-up buildings, informed by previous member feedback. The City receives final feedback from members about its proposal.
 2. Members understand the landscape of considerations for how the City might approach schedule categories and the retrofit program timeline for non-ductile concrete buildings. The City receives feedback from members on their priorities for schedule categories and timeline.
 3. The City receives feedback from members on which topics to prioritize at upcoming working group meetings.
-

Meeting Agenda

1. Welcome, Previous Meeting Recap & Agenda Overview (15 min)

2. City Draft Proposal: Tilt-up Buildings (35 min)

Presentation of City's proposed approach to retrofitting tilt-up buildings, followed by working group member discussion and feedback.

3. Break (10 min)

4. Non-Ductile Concrete Building Schedule Categories & Timeline (45 min)

Presentation of examples and considerations for how the City might approach schedule categories and program timeline, followed by working group member discussion and feedback.

5. Wrap Up & Next Steps (15 min)

Discuss survey results and potential topics for working group meetings #5 and #7.
